

ICAT Manager

Component Status

Alex de Maria Antolinos
Software Engineer
Data Manager@Data Analysis Unit
Software Group
ESRF
20.11.2017

- **ICAT Manager is useful and used at the ESRF**
- **It is used mainly for:**
 - Add users
 - Manage permissions
 - Diagnosis and manual checks
 - Edit parameters Type
- **New features and minor developments will easily improve this component however it is not a high priority for us today**

Roadmap since 2016

- **Fix issues**
- **Improve look and feel**
- **Possibility to query by JPQL**
- **Show stats**
- **Accept self-signed certificates**
