

HZB Site-Report

Rolf Krahl

ICAT F2F Meeting, RAL, November 2017

- Still in “Test production”. Two beamlines register their data in ICAT.
- Server & Storage systems available since September 2017.
- Final installation work in progress.
- Still some work translation workflows into programs.
- New colleague: Heike will work on data curation at instruments, file formats, and metadata from the measurement.
